Ruth Weinstock, MD, PhD

Panel Questions

- Please can you tell us a little more about what makes your clinic unique? Some examples may be work that you feel most importantly encompasses your clinic mission or accomplishments/research contributions that you are most proud of?
- Please can you share with us how the unique NY hospital landscape enhances the potential for clinical, QI and/or research collaboration? Specifically, how might the geographic proximity be leveraged to enhance QI collaboration? Please consider commenting on how state/local politics and advocacy impacts on your work in your response.
