T1D Funders Panel

- Moderator
- Osagie Ebekozi
- MD, MPH, CPHQ

Danny Kovarik
MBA

Anastasia Albanese-O'Neill
PhD, ARNP/PNP-NC, CDCES

Laurel Koester
MPH

Anne Koralova
PhD

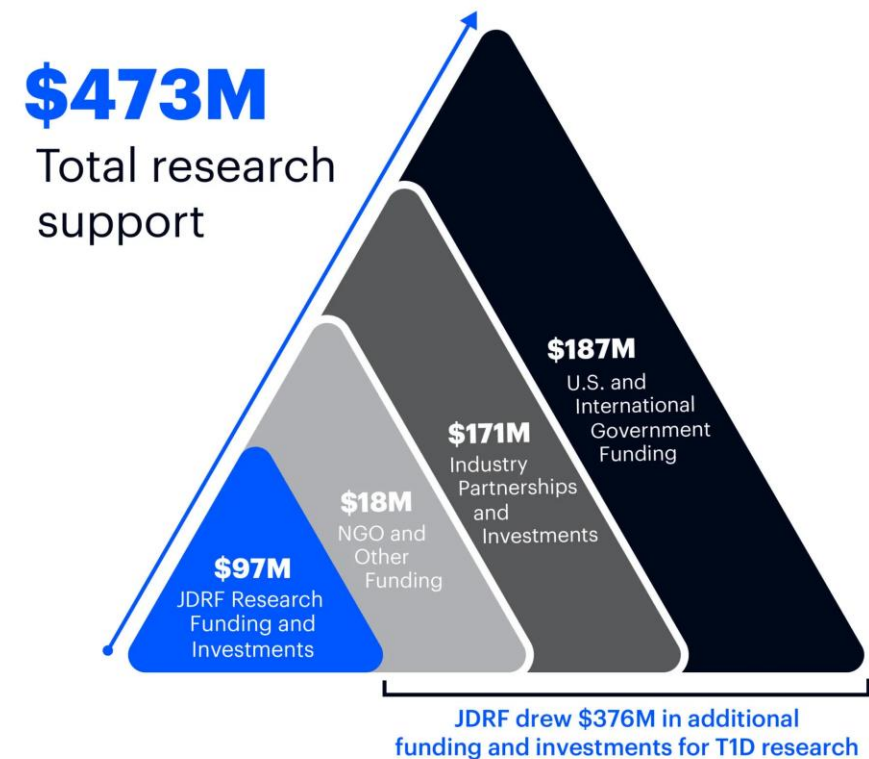

Panel Questions

1. Describe the process and general approach to grant making for HCT.
2. Describe the process and general approach to grant making from JDRF.
3. Can you share an example of a recent initiative/trend in your portfolio you are excited about?
4. Future direction for your portfolio?

JDRF By the Numbers

- **\$2.5B** total funding for T1D research to date (**\$835M** over past decade)
- **>400** active grant commitments exceeding **\$360M** in **23** countries worldwide
- **78** active clinical trials

JDRF funding attracts **substantial** additional resources to T1D research!
In FY22 alone:

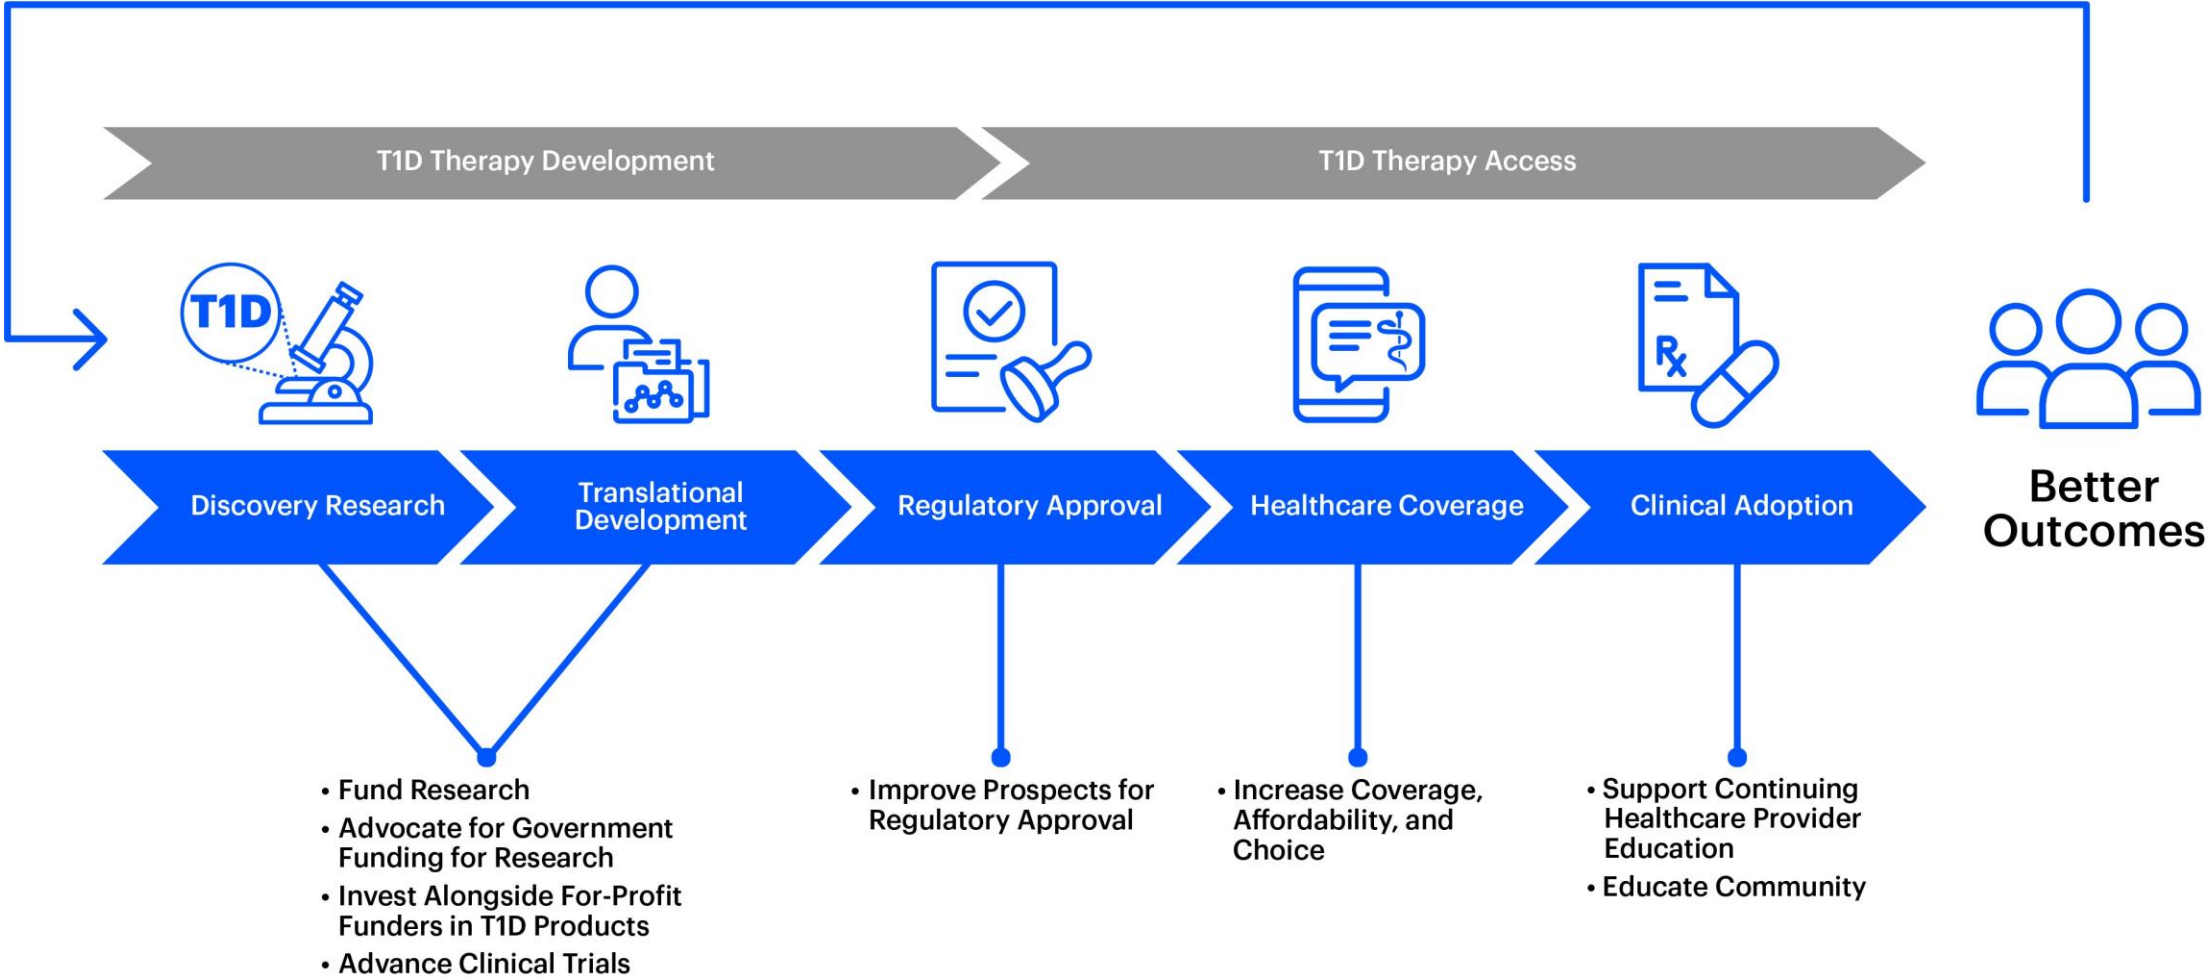

JDRF Research Strategy

Prioritize research funding that has the highest likelihood of **accelerating therapies** to cure and prevent T1D while maintaining strategic gap-filling funding in research that improves lives of people with diabetes

Getting Therapies to the T1D Community

Cycle of Next Generation T1D Therapies

JDRF Research Priorities

Screening

**Disease Modifying
Therapies**

Cell Therapies

Improving Lives

**Training of
Researchers and Clinicians**

New Department!

T1D Education and Clinical Implementation

April 27, 2002

Our daughter's "Technology"

Departmental Focus

Educate Healthcare Professionals

Educate JDRF Staff, Volunteers, and the T1D Community

Clinical Pilot Sites

Enhance Online, Digital, and Print Resources

Guidelines

Accelerating Access to CGMs in Medicaid to Improve Diabetes Care

CGM Access Accelerator

18-month initiative for Medicaid programs

7 states participating: IA, KY, MI, NJ, OK, SD, TX

CGM Policy Navigator

Short-term technical assistance for Medicaid programs

Resource Center

Information to help states considering CGM Medicaid policy changes
