T1DX-QI Contact

Please help us make sure your team contacts are up to date!

Use this link to view your centers contacts on the member website. Email hhardison@t1dexchange.org with any updates.

The screenshot shows the T1D Exchange Quality Improvement Collaborative website. The top navigation bar includes social media icons (Twitter, Facebook, Instagram, LinkedIn) and links for 'Clinic Contacts', 'Opportunities', and 'Log Out / My Account'. The main header features the T1D Exchange logo and a search bar. The 'RESOURCES' menu is highlighted, and the 'QI Collaborative Clinic Profile' section is expanded to show a table of clinic contacts.

Clinic	Collaborative Team Members & Roles	Email
Albert Einstein Montefiore	Shivani Agarwal, PI, MD	shivani.agarwal@einsteinmed.org
	Justin Matthew, MD	jusmathew@montefiore.org
	Michael Greenberg, NP	micgreen@montefiore.org

- Nomination Deadline March 15th
- Use this [link](#) to view the Clinical Leadership Committee page for any questions
- Use this [link](#) or scan the QR code if interested in becoming the Clinical Leadership Committee Co-Chair (1 ped and 1 adult)

Questions from the Collaborative

Question:

Has anyone started to use insulin pens in the hospital for new-onset education? We used to have them, but the hospital banned them a few years ago (due to safety concerns on the adult side). We would like to ask for permission to use them in the Children's Hospital again. Thanks!

Name: Mary Pat Gallagher, MD

Question:

I am looking for a template letter for prior authorization to justify Fiasp. The response we got from insurance was that it does not improve glycemic outcomes relative to Humalog novolog. I need some sort of protest letter with citations. Please share if you have them.

Name: Joyce Lee, MD

Questions from the Collaborative

Question:

Looking for diabetes peer curriculum and looking to see if anyone has Endo fellow training curriculum in diabetes technology.

Name: Nana-Hawa Yayah Jones, MD

Question:

We are switching to EPIC next year and are currently building our flowsheets and figuring out who will receive access to different the features. The Reports access is being discussed currently and we wondering if other sites utilize this for QI work and who on their team has access to it. Any help you can provide is greatly appreciated!

Name: Blake Adams, BSN, RN

Question: How would canceling Detemir affect patients in your practice

Name: Carol Levy, MD

Type2 Discussion

What questions does the T1D Exchange Pediatric and Adult Centers want the T2D Collaborative to answer?
