Updated SOPs

Claire and Alyssa have been working on updated SOPs for the Publications Committee

1. Publications
 - Provides a general overview of the publications process
 - We will review together
2. MS Planner
 - Provides an overview of the internal process used to track publication status within MS Planner
 - We will not review in this meeting, but please reach out if you are interested

Review of Manuscripts

Phase 4

Short Title: Reproductive health counseling in the T1D Exchange Quality Improvement Collaborative(T1DX-QI)

First Author: O'Malley

Status: Resubmitted in mid-August

Target Journal: Diabetes Spectrum

Phase 5

Short Title: Anxiety in Youth and Adults with Type 1 Diabetes and Associations with Clinical Outcomes

First Author: Roberts

Status: Journal acceptance

Target Journal: Diabetes Spectrum

Diabetes Journals Review

The **Clinical Diabetes** journal is currently being published but will be **discontinued** in early 2026 and replaced by a new publication.

We are researching journals similar to Clinical Diabetes

- Impact factor: 4.1-7
- Topic areas (content) being willing to publish QI practices, clinical work, case studies, multicenter networks
- Cost per open access article (\$1500-\$2500 per article)
- Editorial connections
- Article types

We'd love your insight...

1. Share suggestions/knowledge about other journals that we could consider approaching
2. How can we affordably publish in high impact journals?

Learning Session Abstract check-in

- Check-in with co-chairs, Dr. Akturk and Dr. Crossen

Thank you for your time!

Thank you for your contributions this year, the next Publications Committee Meeting will be in 2026!
