Health Equity

- How can we ensure that our guides apply to a wide range of audiences?

Prior Authorizations

Perspectives and experience with PAs:

- What actually happens when a PA delays or changes care, even briefly?
- When do PAs feel manageable vs. when do they interfere with care?

What change would actually help? Fewer repeat PAs for stable care, faster approvals, or exemptions for lifelong conditions like Type 1 Diabetes.

How can we advocate for system changes to reduce gaps in care, access, prescriptions, etc.

Thank you, Emily and Jeniece!
